

The Environmental Policy of Forbes and Hunt Boilers is to achieve a high standard of environmental care in conducting our business associated with the design, development, production, installation, inspection and service associated with steam and hot water boilers, together with other pressure equipment, provided to the industrial and commercial market.

The Company is to achieve a high standard of environmental care by:

- Conducting the Company's business in a manner that is environmentally responsible having due regard for changing community standards and expectations.
- Conserving resources used by the Company in the execution of the Company's business including the maintenance of effective energy conservation strategy when it is cost effective.
- Continually improving its environmental performance, prevent pollution and responsibly minimise and control its wastes.
- Plan, construct and operate all locations to comply with applicable regulations, and to act with due diligence for environmental protection and improvement.
- Promote throughout the company a strong environmental ethic as part of its culture.
- Consider favourably, suppliers who pursue good environmental management practices.
- Help conserve resources by the design and production of products to reduce the use of raw materials, packaging and energy in manufacture, and by recycling production wastes.

Sound environmental management is an integral part of the provision of an efficient, effective and sustainable industry. All staff is responsible for sound environmental management and all managers are accountable for environmental performance in their areas of responsibility.

Signed
